

Please do not remove or in any way inhibit the transmission by way of LPFM or any other action K-Love radio. I live and work on the Central Coast of California which has very limited radio coverage to start with and the excellent programming of K-Love, which I fully financially support, is of the utmost service to the public interest in this area. The effect on the local community would be devastating if you remove this station and others like it from Central Coast access. Please just leave everything as it is, I do not desire other programming which would not replace my station.

Sincerely
Julia Woods
Cambria, Ca
